our Memo No L 4838/M1 dated 28th
uent communications Nos L 3019/M1
3151 dated 26-10-36 forwarding for
garding the acquisition of S No 123
ipality for town extension I have
the honor to state that the Sub Division Officer Tumkur, after personal inspection of the spot and hearing the Takarardars for reasons explained in his report No P R 582/34 dated 8-6-1936 is of opinion that the acquisition of the property in question may be dropped as the extent available is not sufficient for purposes of a decent extension and that the owner might be permitted to use the site for putting up buildings of a proper design The Municipal Council who originally proposed that land was necessary for laying out new sites have now resolved that the land is required for putting up a Primary School building The value of the land itself comes upto about Rs 4000/- and it is doubtful whether in the present financial condition of the Municipality it will be possible for them to find the required funds for putting up a building incurring some more expenditure They are not prepared to pay the conversion fine on the land Copies of the marginally* noted letters together with those of resolutions of the Municipal Council received from the President insisting on the proposed acquisition of the land are enclosed

for kind perusal, and the plea of acquisition for a school building seems to be an after thought I am not satisfied with the change in the attitude of the Municipal Council which is torn into factions Resolutions and withdrawals of resolutions are becoming very frequent The acquisition of the property in question may therefore be ordered to be dropped and the owner permitted to use the land for building purposes subject to payment of necessary conversion fine

The connected records and the objection petitions are enclosed
